

High performance coil coating systems

Steel door market

Discover more behind one door

Our leading products are equally matched by service that drives your business. Discover the benefits you can find **behind one door**:

Lasting partnerships

Commitment of trust to deliver leading service and results every time.

Leading services

Protecting your projects and your reputation. We apply our expertise so you can apply the perfect coating.

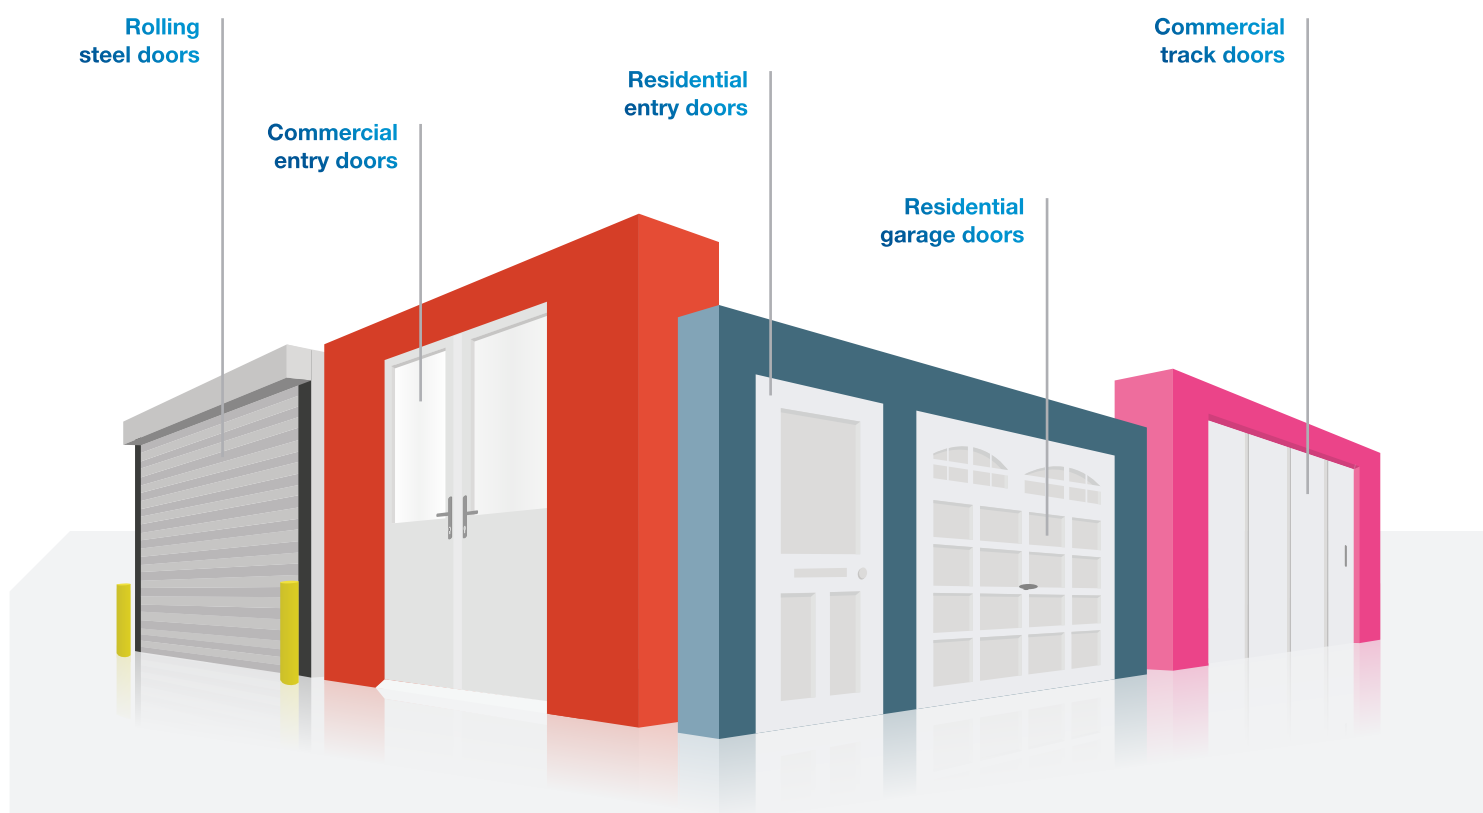

Tailored products

High quality coatings that stand the test of time to ensure premium performance for your projects.

Steel door coatings for specifiers, service centers and coaters

What we offer

AkzoNobel offers trusted partnerships built on a strong reputation of supplying quality, unique coatings to the steel door market.

Our steel door coatings give flexibility and diversity to a range of applications including rolling steel doors, commercial and residential entry doors, residential garage doors and commercial track doors.

POLYDURE®

Leading polyester topcoat systems for steel doors

POLYDURE® is the leading proprietary resin technology specifically tailored to the needs of the steel door market.

POLYDURE® for steel doors

Our portfolio of POLYDURE® coatings provides a high quality premium appearance to protect your brand and projects for increased end user satisfaction. POLYDURE® for steel doors excels when combined with a leading primer and backer as part of a system. Our full portfolio is also backed by our proven warranty and customer service for peace of mind.

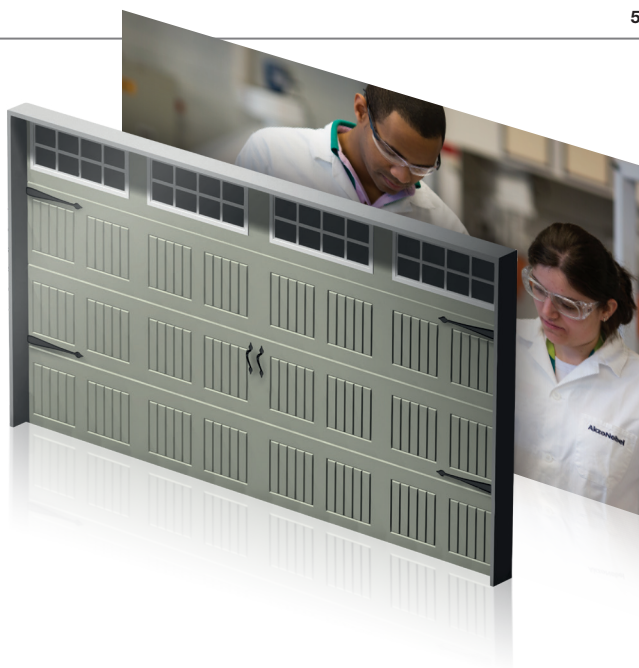

Proven trouble-free application combined with a consistent, smooth film

Provides a broad range of color, gloss, print and texture options

Versatility in field quality and performance is only rivaled by the service we provide

Each steel door project is unique.

That's why we offer a full portfolio of options tailored specifically for the rigors of steel door applications.

POLYDURE® N D2000

Standard hybrid coating

Optimized coating provides scratch and abrasion resistance with built-in flexibility. Primarily for the track door segment.

Combines leading performance with premium appearance

Exceptional performance during fabrication and transport

POLYDURE® N D2020

Maximum flexible coating

Flexible coating improves production throughput and lowers reject rates. Primarily for the track door segment.

Increases forming, bending and embossing flexibility

Improves confidence to increase production efficiency

POLYDURE® N D2030

Tough and rigid coating

Maximum scratch, abrasion and wear resistance that stands strong. Primarily for the rolling steel door segment.

Tough coating that stays looking newer for longer

Durable and quiet even during constant door opening and closing cycles

A quality coating is only **part of the story**

Your team of AkzoNobel coating experts combine an industry-leading door coatings portfolio with the highest level of customer service relationships and tailored programs to bring your projects to life.

Relationships and industry expertise

You can depend on us. Our services are designed to offer market leading products and an expert service allowing you to optimize your business.

- ✔ Expert advice on solutions to fit your needs
- ✔ Industry knowledge and expertise to optimize your business
- ✔ Expert color trends program to achieve project goals
- ✔ Color programs to ensure color consistency

Color expertise

Retail color matching program

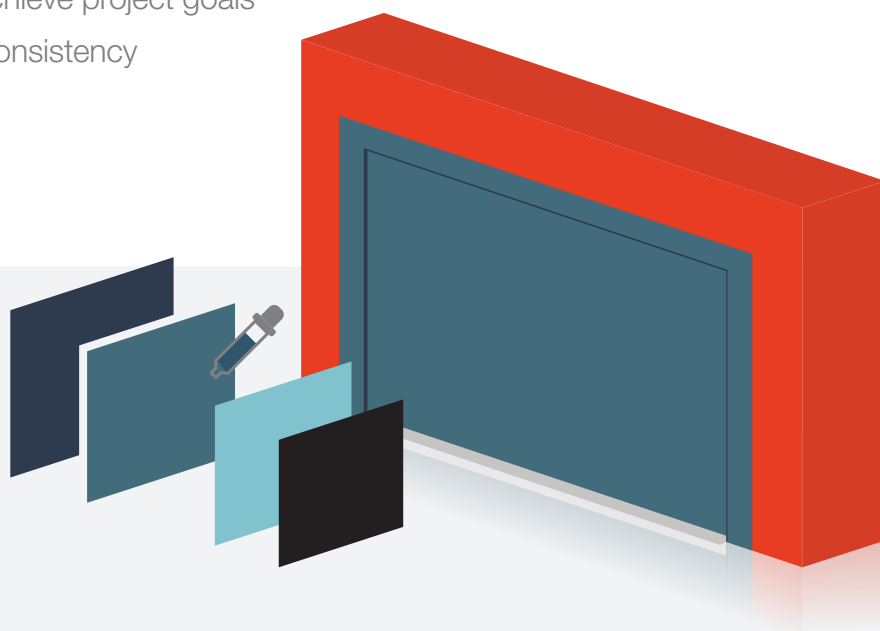

AkzoNobel's leading color program offers a matching process ensuring color consistency of adjacent trims and ancillary coatings.

- ✔ Match paint to trim and other ancillary coatings for project consistency
- ✔ Research retailers and obtain matching product codes and corresponding data
- ✔ Quickly respond to color matches and new product requests
- ✔ Monitor projects from start to finish

Color stability program

Our industry-leading color stability program reduces time and costs while increasing project accuracy and success.

- ✔ Track all line data for color and gloss performance
- ✔ Tight quality control tolerances to ensure low variability and match master standard specs
- ✔ Increase color and gloss consistency of final project

coilcoatings.akzonobel.com/us

We've been pioneering a world of possibilities to bring surfaces to life for well over 200 years. As experts in making coatings, there's a good chance you're only ever a few meters away from one of our products. Our world class portfolio of brands – including Dulux, International, Sikkens and Interpon – is trusted by customers around the globe. We're active in more than 150 countries and have set our sights on becoming the global industry leader. It's what you'd expect from the most sustainable paints company, which has been inventing the future for more than two centuries.
